

Village Hall Ad Hoc Committee Meeting

Thursday, July 30, 2020

6:00pm

Minutes

Present : Josh Stolzenburg, Lisa Anderson, Bobby Bailey

The meeting was called to order at 6 :00pm

Minutes from June 3 approved : M/S Anderson/Bailey

Current designs : Gimme Shelter has provided 3 versions of a new building design for review and feedback. The committee's current preference is Design C in which the overhang faces the basketball court, there is external access to the bathroom and a large rectangular open space for meetings and voting.

ADA compliance was raised particularly with respect to access from the road. We'll ask Dan to look into requirements for accessibility in parking.

Discussion on how, where to present options to the public for input. Can we do it in person safely and get attendance? Jensen Center, High school raised as options.

It would be best to come to a decision on this by the fall, so that if we are moving ahead we can engage contractors as they are experiencing long lead times.

Put together the following for public consideration

- List of reasons why we need and want a new Village Hall
- Budget numbers from Gimme Shelter
- Calculator to determine individual tax liability
- What we would get for our existing properties if we decided to sell them
- Rendering of the building in the park

Shooting for Wednesday 9/2/20 at either the Jensen Center or Online, but if online need a strong powerpoint or other visual presentation.

Meeting adjourned 7 :19pm
